Henry C. S.W.

## United methodist

Henry Logan Memorial AMP Church (SW corner of Ann & 6th Sts.)
89-40

This is a gable roofed church with a NE corner tower. Its E gable end contains 3 round arched stained glass windows with brick relieving arches and stone sills. The 4 side bays (S), defined by pilaster strips and straight corbeled cornices, contain similar arched windows. On the N, 2 of the bays are obscured by the square pyramidal roofed tower with its weathervane finial and doorway with lunette. A shallow, shed roofed addition with irregular fenestration extends across the rear (W).
