10. SIGNIFICANCE (use additional sheet if necessary):

a. Architect/Builder/Engineer:

?

b. Style/Period: Classical

c. Date(s): 1898 (datestone)

This is a simple Classical design which forms part of a visually important cornerstone group with the Citizens National Bank and the Guaranty Building. Originally built as a jewelry store (Smith's?), it continues to operate as such. Interesting interior features include a fine tin ceiling and a built-in vault.

The Mather Building's light, rusticated sandstone facade reveals significant tooling features popular in the ornamentation of turn-of-the-century commercial building fronts. Rustication of this form accords the building companion status with its corner neighbors.
