Trinity Protestant Episcopal Church/ Trinity Episcopal Church 424 Juliana St. 92-33

Located on a busy thoroughfare between its rectory and a modern drive-in bank, this is a gable roofed church, 3 bays by 8, attached to the rectory to the NE by a newer wing. Its asymmetrical facade (NW) rises to a N corner tower with a turreted gable roof. A 2nd turret rises at the W corner; it is joined to the central gable by a single flying buttress. The main entrance is below. The gable end is filled by a rose window above a triad of Gothic arched windows flanked by colonettes. The side walls are pierced by Gothic arched windows, the bays defined by buttresses.

The interior features one large space with exposed hammerbeam roof construction.
